May has joined us as our first non-residential bursary recipient. She has registered for an LLB at Unisa and completing her second-year exams. She has been doing a sewing course as well this year and is loving it and has produced some wonderful products. She hopes to do a more in-depth course next year as well. She has younger siblings and is trying to help them with schooling and tertiary education and support as well.

Thandeka, also a non-residential bursary recipient, tried to improve her Matric during 2020 but studies were really hampered by the lockdown. As a result, she has decided to begin her own small business and is growing in this regard. We are trying to increase her entrepreneurial skills as she grows.
